Instrumentation SOLUTION Features:

- A complete line of tubing and pipe application products
- A wide range of temperature and pressure ratings
- A line of tubing tools and assembly equipment

Instrumentation SOLUTION Benefits:

- The installer ONLY needs to develop ONE source for products
- Reduce your vendors
- The "package" can be customized to fit applications from low pressure to 15,000 psi and the associated temperature ratings
- The installer will have the correct tools to inspect, make-up, and install all of the products in this package
