

Puffer-Sweiven Named Emerson Representative for Isolation and Pressure Relief Valves in Gulf Coast and Central Texas Region

Following Emerson's acquisition of the Valves & Controls business unit of Pentair, Emerson named Puffer-Sweiven as the representative in the Gulf Coast and Central Texas region for many of their acquired products. In addition to the well-known Emerson brands that Puffer-Sweiven currently represents, like Fisher, Bettis, Virgo, EIM, and Enardo, Puffer-Sweiven now represents Anderson Greenwood, Crosby, Keystone, KTM, Vanessa, Clarkson, Yarway and more. The addition of these product lines and accompanying services means that Puffer-Sweiven can now meet all final control needs.

Control Valve

Pressure Regulator

Pressure or Safety Relief Valve

Isolation Valve

Actuators

Final control is what you need all valves to do.

Previously, customers across a wide range of industries have been buying valves and valve services from many different providers which added complexity and cost to their process. Now, industrial process operators, purchasers, and engineers can call one number for all valves & valve service needs, which includes control valves, isolation valves, pressure and safety relief valves, and valve actuation.

Puffer-Sweiven's relationship with Emerson as a Local Business Partner balances local expertise with global leadership.
