

# MYERS® 2C SERIES

## 2-STAGE HIGH PRESSURE CENTRIFUGAL PUMPS

1, 1-1/2, AND 2 HP

HEADS TO 175 FEET

CAPACITIES TO 45 GPM

### High Performance

Myers 2-stage centrifugal pumps deliver high performance with a rugged design for years of trouble-free service. The 2-stage pumps are available as a complete pump and motor assembly or pump end only. The fully assembled pump end quickly mounts to a NEMA 56C motor. The pumps will easily prime up to 15 feet of total suction lift. The dynamically balanced impellers produce steady, quiet and vibration-free performance at all pressures.

### Choice of Complete Unit or Pump End Assembly

- Pump end assembly – Ready for direct mounting to NEMA 56C motor.
- Complete units – Powered by a strong capacitor start, double ball-bearing motor capable of continuous operation.

### Separate Pump Shaft Design

- Class B insulation.
- Continuous duty.
- Internal thermal overload protection.

### Easy Priming

- Up to 15 feet of total suction lift.

### Strong Pump Performance

- High heads to 175 feet (75 psi).
- Maximum temperatures of 160°F (71°C).

### Rugged Heavy Duty Construction

- High tensile cast iron case, bracket and internal housings.
- Stainless steel pump shaft.
- Long life mechanical shaft seal lapped and polished carbon-ceramic with stainless steel construction.

# Performance Data

3450 RPM
